

## The Gerald Whitrow Lectures

The Gerald Whitrow Lecture is given every two years by a distinguished and eloquent speaker on any topic in cosmology, including its philosophy. The speaker may be based in the UK or overseas. The lecture is delivered at an Ordinary (A&G) Meeting of the RAS.

Year	Name of Lecturer	Date Lecture Given	Title of Lecture
2022	Pedro Gil Ferreira	TBC	TBC
2020	Andrew Pontzen	2021 March 12	<i>Dwarf galaxies in cosmology</i>
2018	Lord Martin Rees of Ludlow	2018 February 08	<i>Progress and frustrations in cosmology</i>
2016	Neil Turok	2016 October 14	<i>Universe</i>
2014	Ofer Lahav	NAM 2014	<i>The enigma of Dark Matter &amp; Dark Energy: have we been here before?</i>
2012	Andrew Liddle	2012 November 09	<i>The Universe, Darkly</i>
2011	Alexander Vilenkin	2011 April 19	<i>The Principle of Mediocrity</i>
2009	George Ellis	2009 April 23	<i>Evidence and theory, Fact and Fancy: the state of cosmology today</i>
2005	Carlos Frenk	2006 December 08	<i>Our Implausible Universe</i>
2003	Paul Davies	2004 October 08	<i>The Arrow of Time</i>
2001	John D. Barrow	2002 March 08	<i>Cosmology: A Matter of All and Nothing</i>
